

EX-VIEW

Rechargeable EX PROOF headlamp

Supplied with the newest COB LED technology, the EX-VIEW provides an extremely powerful illumination which spreads the uniform light to the maximum and lightens up your entire field of view.

EX-VIEW is durable and remarkably lightweight compared to other explosion proof headlamps on the market. The design is ergonomic for a perfect, comfortable fit, and the woven band is strong and adjustable.

When set on sensor mode EX-VIEW is turned on/off only by waving a hand in front of the lamp in a dual movement. Thus, the light can easily be switched on/off, even when wearing thick gloves.

As an extra feature, the headlamp can be detached easily from the band and used as a hand lamp or placed on a magnetic surface for inspection work.
