Highlights

Car manufacturer choice

For 100 years, Philips has been on the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting

Change by pairs

Highly recommended to change them by pairs for symmetric light performance

Designed for multiple usage

Which 12V lamp for which function ? Philips Automotive offering includes all car specific functions : high beam, Low beam, front fog , front indicator, side indicator, rear indicator,

stop light, reversing light, rear fog light, license plate lights, rear position/parking light, interior lights.

Drive several times longer

With Philips LongLife EcoVision drivers don't have to worry about changing a headlamp for at least 100 000 km.

ECE homologation

Philips automotive products and services are considered best-in-class in the Original Equipment Manufacturer market and the aftermarket. Manufactured from high quality products and tested to the highest specifications, our products are designed to maximize the safety and comfort of our customers' driving experience. Our entire product range is thoroughly tested, controlled and certified (ISO 9001, ISO 14001 and QSO 9000) to the highest ECE requirements. Put simply, this is quality you can trust.

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2

650° C and glass 800° C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light

Reduced maintenance

With Philips LongLifeEcoVision you need significantly fewer lamp replacements. This makes them the ideal lamp for high voltage cars.

Resistance against humidity

Only a burning bulb made of quartz glass (filament 2650°c, glass 800°c) can resist thermal shocks : if a drop of cold water touches the hot bulb, which can happen when you drive through water with a broken headlight unit.

Rewarded Car lamps

Our lamps are often rewarded by automotive experts
