DESCRIPTION

The JEWEL collection is a fashionable set made of high-quality metal that looks nice at the same time. It works properly and safely at a frequency of 50 Hz and a voltage of 230 V. The product has light sources with a classic E27 thread. The JEWEL series includes wall lamps, bedside lamps and hanging lamps with one point of light, ceiling lamps with and without overhangs with space for three bulbs and hanging lamps with space for five bulbs. Products from this collection are devices sensitive to moisture and pollution. This is evidenced by the symbol of the degree of protection - IP20. This should be taken into account when planning the place of installation of the lamps.

MiLAGRO lamps that can be found in the JEWEL series are available in two color versions: black and white. They are perfect for modern, minimalistic rooms and, apart from practical use, they will decorate them.

MiLAGRO products are covered by a 2-year warranty.
