## DESCRIPTION

---

Toledo is a collection of lamps made of metal. It consists of a small wall lamp and a wide range of lamps: hanging ceiling lamps with one, three or five points of light and ceiling lamps such as a plafond with three and five points of light. The lighting in this series is equipped with an E27 thread. The big advantage of hanging ceiling lamps is the possibility of adjusting the height of the overhang from 50 to 90 cm. Thanks to this, individual points of light can be set at different heights, creating original stylizations.

Lamps from the Toledo collection are characterized by their versatility. Due to their design, they will suit both classic and more modern interiors. The chrome, silver surface adds style to the whole, and round crystals mounted on the fixtures emphasize the uniqueness and elegance of the lamp, as well as the arrangement in which it was used.

Lamps are covered by a 24-month warranty.
