## DESCRIPTION

---

The MiLAGRO lamp, available in the DON collection, is a fashionable set made of durable material. It works properly and safely at a frequency of 50 Hz and a voltage of 230 V. The product has light sources with a classic E27 thread. The DON series consists of wall lamps and hanging lamps with one light point, ceiling lamps with and without overhangs for three light bulbs, as well as circular chandeliers with five and seven light points. Products from the DON collection are devices sensitive to moisture and pollution. This is evidenced by the symbol of the degree of protection - IP20. This should be taken into account when planning the place of installation of the lamps.

DON lamps are available in white, black and in stylish and fashionable gray. You can choose one model or equip your apartment with a whole set of matching lamps in a similar style. They will work both in the living room or bedroom, as well as in the dining room.

MiLAGRO products are covered by a 2-year warranty.
