DESCRIPTION

Lars is a collection of lamps made of metal. The lighting was not equipped with a light source. The thread for which the appropriate bulb should be selected is E27. Depending on the type of lamp, there may be a maximum of seven light sources. The degree of protection is IP20.

Lars is a collection that fits perfectly into the current trends. The industrial form of lamps will be a perfect complement to loft and modern interiors. The universal, white, gray or black colors also deserve attention. The collection includes a wall lamp, hanging ceiling lamps with three, five and seven luminaires, the height of which can be adjusted from 50 to 90 cm, and a ceiling with three points of light.

The manufacturer gives a 24-month warranty for the lamps.
