**DESCRIPTION**

**When furnishing the interior of the house, you cannot forget about safety and proper lighting outside the building. It is best to mount it on paths, driveways, terraces, or in the garden between plants. Not only will it illuminate the garden, but it will also become a beautiful decorative element of the garden. It is corrosion resistant, waterproof with IP 44. It looks very aesthetic and is a perfect complement to the rest of the models from the FOX collection. It is available in white and black with a height of 290 mm or 600 mm.**
