DESCRIPTION

ASPEN lamps - the new face of the classic

The ASPEN line, designed by the Polish brand MiLAGRO, is a unique combination of a classic concept with a modern workmanship. This collection includes a wall lamp and two chandeliers: a larger one with a diameter of 45 cm and a height of 50 cm, with as many as 9 bulbs, and a smaller one with dimensions of 45 x 30 cm and 6 light points. Each model is available in two color variants: in noble gold and stylish chrome.

The unique collection of ASPEN lamps is a tribute to lovers of luxurious and extremely sophisticated accessories. All models from this line resemble classic palace chandeliers with cascading layers of crystal icicles. An innovative accent is the highest and at the same time the outermost layer, which is made of slender, rectangular plates made of gold or chrome-plated metal. Thanks to this variety, the lamps have acquired a slightly more modern character and the spectrum of their possible applications has been expanded. Such lighting will be successful both in traditional living rooms and romantic bedrooms, as well as in more eclectic spaces, where there is no shortage of strong colors and expressive gold or silver accessories.

ASPEN lamps - luxury at your fingertips

Elegant and luxurious lamps from the ASPEN collection impress with their excellent design, attention to detail and precision of workmanship. High-quality metal and crystal elements were used to create them, which very effectively diffuse the light. The great advantage of the chandeliers from this collection is also the possibility of height adjustment. They were hung on elegant metal eyelets that can be adjusted to your own needs and requirements of the room, ranging from 50 to 100 cm for the smaller lamp and from 60 to 120 cm for the larger model. All models from this collection, both in chandeliers and wall lamps, are designed for 40W E14 bulbs. For the best effect, it is good to opt for candle-shaped bulbs,

The collection, combining tradition and modernity, includes:
