MALMO line - lamps for many arrangements

The MALMO series consists of seven unique hanging lamps. They are distinguished by a classic, although modern design. A lampshade with an interesting, timeless shape and soft lines will work especially well in minimalist arrangements. This type of lighting is sure to attract attention. The distinguishing feature of this line is a wide range of colors, thanks to which we can match the lamps to any room in the house. Elegant black and neutral white, with gold or chrome details, is the best choice for the dining room, kitchen or living room. In turn, candy colors - mint, pink and blue - will delight the youngest family members. Children's rooms will be lit up like never before.

The width of the lamp is 300 mm, as is its depth. The big advantage of this model is the possibility of adjusting its height, which allows it to be adapted to our needs. Regardless of whether we want to hang the lamp above the kitchen table or the countertop in the living room. The height is from 400 to 900 mm.

MALMO lamp from Eko-Light - Polish quality

Lamps from the MALMO line are undoubtedly distinguished by the quality of their workmanship and attention to detail. The lighting is made of high-quality metal, resistant to scratches and abrasion. As for the electrical parameters, the lamps operate at a voltage of 230V, and the frequency of their power supply is 50Hz.

E27 type threads are mounted in MALMO lamps. The light source is not included in the set.

Lighting from the MiLAGRO brand is covered by a 2-year warranty.
