DESCRIPTION

DANI lamps - modern face of luxury

The elegant DANI collection of the Polish brand MiLAGRO was designed with modern, luxurious spaces in mind. This family consists of four different models, including a single overhang on a round rosette, a triple overhang on a rectangular strip, as well as a small wall lamp and a subtle ceiling lamp with three light sources in the form of spotlights. Each of the lamps is available in four color combinations, combining black or white with chrome or gold.

The unique collection of DANI lamps is a proposal that impresses at first sight with a fantastic combination of a simple, geometric form with noble details. The most important and the most decorative elements of each model are narrow black or white cylindrical lenses with a diameter of 6 centimeters, the bottom of which is crowned with shiny gold or chrome hoops. In the case of wall lamps and a triple ceiling lamp, the length of the lampshade is 12 cm, while the overhang fittings are much longer and measure up to 36 cm. For the comfort of users and enabling them to adjust the height of the lamps to their needs, the length of the slings in the hanging lamps can be adjusted in the range from 50 to 90 centimeters.

The elegant form and noble colors of the lamps from the DANI collection make them the perfect choice for luxury apartments and modern spaces dominated by wood, graphite plates and shiny accessories. Black lamps with chrome and gold accents look great against the background of gray walls, textiles with a thick structure and strong color tones, as well as with bent metal furniture. The white variant, with details in the color of classic gold and modern chrome, is a proposition for bright, spacious interiors, including large, Scandinavian-style living rooms and panoramic apartments.

DANI lamps - elegant hand in hand with quality

In the case of lamps from the DANI collection, perfect design goes hand in hand with the highest quality. All proposals in this line are made of metal, powder coated in black or white, thanks to which the

luminaires are extremely durable and durable. The manufacturer recommends using LED light sources GU10 type in DANI lamps. However, bulbs are not included in the kit.

The elegant collection of DANI lamps includes:
