## DESCRIPTION

---

Bedside lamp with a shelf SHELF

The SHELF series from the Polish brand MiLAGRO impresses with its simplicity and unique design. The combination of a classic, minimalist wall lamp with a shelf with switches is a great solution for a bedroom or a living room. The model is available in two color versions: white and black, so it can be matched to virtually any color, the more subdued and expressive. An additional advantage of this series is a place for a USB cable, which will make it easier to connect and charge the phone close to the bed, if there is no socket nearby.

Lamps from the SHELF collection are perfect for hotel rooms, where guests value comfort and style. This comfortable solution will delight you with its design and multi-functionality. This wall lamp can be installed in a modern interior with a minimalist character, as well as in a classic, elegant room. A simple housing will fit into any space, which will allow you to easily adjust other lighting elements. Gentle light will make the evening reading of books or watching TV more pleasant.

SHELF series - modern technology of Polish production

The wall lamps from the SHELF collection use an energy-saving LED light source with a power equal to 4W + 5W + 2W, and the luminous flux is 800 lumens. In turn, the color temperature is 4000 K, which

means that the lamps give light with a neutral color. This type of light is very versatile and suitable for both work and rest.

The width of a single wall lamp from the MiLAGRO brand is 26 cm, its depth is 11 cm and the height is 12 cm. The plate on which the wall lamp is placed has also been equipped with a practical USB socket, two switches that can be used to charge a smartphone and other electronic devices and a practical shelf. The collection is covered by a 2-year manufacturer's warranty.

The SHELF line consists of two unique lamp models:

- ML6344 black wall lamp
- white ML6343 wall lamp
