## DESCRIPTION

---

Sydney - minimalist design and class

The Sydney lamp series created by the Polish brand MiLAGRO combines minimalism and modernity. The collection includes 4 wall lamps, including the right and left one in black and white. The simple shape of the beam with a built-in switch and LED diodes guarantees linear lighting, and the decorative ball makes the whole thing look geometric. The Sydney line is made of the best quality material, which guarantees reliable effect and efficiency. The distinguishing feature of this series is the round base with which it is mounted to the wall. Such an original element will certainly prove to be an additional light point in the room.

The modern style of wall lamps allows you to mount them in spacious interiors, those with a slightly bold, post-industrial character, as well as more classic ones with a limited number of accessories. The possibility of choosing the arrangement of the lamps allows for great flexibility in their use. SYDNEY wall lamps, due to their simple, geometric shape, will prove themselves in modern, minimalist interiors. In the living room, they will be a great addition to the main lighting. Their soft light will create a cozy atmosphere. It will also be appropriate during a TV show. We can also get an interesting effect in the bedroom by hanging the sconces symmetrically on both sides of the bed just above the bedside tables.

Sydney Collection - Milagro lamps

The combination of the highest quality materials is the hallmark of the MiLAGRO brand. Lamps from the Sydney collection are made of extremely durable, impact-resistant and easy-to-clean metal. Classic dimensions enable installation in virtually any room. The geometric, universal form of the lamps means that they can be used both as an interesting addition and as night lighting, e.g. by the bed.

Lamps from the Sydney series are designed for light sources with a power of 6 W, giving a flux of 420 and a color temperature value of 4000 K. This product is covered by a 24-month manufacturer's warranty. The Olimp lamps series includes: wall lamp with one light source with a ball on the right side in black ML6346 wall lamp with one light source with a ball on the right side in white ML6345 wall lamp with one light source with a ball on the left side in black ML6348 wall lamp with one light source with a ball on the left side in white ML6347
