DESCRIPTION

The BASE line, designed by the Polish brand MiLAGRO, is a modern collection of LED wall lamps. It consists of three minimalist sconces with an oval base and in the form of a rectangle and a square with rounded corners. The light source is placed on a long, flexible arm, so you can maneuver it freely and adapt it to your current needs. An additional advantage of the lamps from the BASE collection is the USB port located on its base. Each model is available in two color variants: black and white.

Lamps from the BASE collection are a proposal that will be perfect for modern interiors, such as offices, offices and teenagers' rooms. Their minimalist form and high functionality mean that they can also be successfully installed in the bedroom, as an alternative to traditional bedside lamps.

Lamps from this collection are covered by a 24-month manufacturer's warranty.
