DESCRIPTION

Astro lamps - a stylish collection for demanding customers. The Astro lamp collection, designed by the Polish brand MiLAGRO, is a proposal for all those who are looking for stylish lighting in a minimalist version for their home. This family of products includes a pendant lamp and a ceiling lamp, each of them available in two color variants: black and white. The most characteristic element of all Astro lamp models are the elegant square-shaped lampshades with rounded corners and a cut-out in the middle. In the case of overhangs, the lampshades are suspended on a round rosette and subtle, metal cables that can be adjusted in the range from 40 to 100 centimeters, adjusting the height of the lamp to your needs.

Lamps from the Astro collection will work best in rooms decorated in a modern and minimalist style, but there is nothing to prevent them from being mounted in more classic arrangements. Due to the expressive shape of the lampshades and their large dimensions (50x50 cm), the lamps should be used as the main and central lighting point in the interior or placed above the dining room table or sofa in the living room. Each of the modern Astro models will certainly be an important decorative element in the interior, perfectly matching the walls of a uniform color and minimalist furniture. Fans of more eclectic spaces can contrast the simple form of lamps with a bolder background in the form of multicolored or patterned wallpaper.

Astro series - design and functionality in one

Elegant, square lamps from the Astro collection perfectly match the taste of lovers of solutions, combining perfect design with the highest durability and functionality. Products in this series are made only of the highest quality materials: metal and acrylic in white and black. For all models, the light sources are replaceable LED modules with a power of 24 W, a luminous flux of 1680 lm and a color of 4000 K.
