## CHARACTERISTICS

---

Width: [Ø480mm](#)

Height: [70 mm](#)

Power: [52W LED](#)

Luminous flux: [3640lm](#)

Color temperature: [Adjustable 3000K - 6000K](#)

Source of light: [Yes](#)

Dimmable: [Yes](#)

Voltage: [~ 230V / 50Hz](#)

Ingress Protection (IP): [IP20](#)

Color: [White](#)

Made of: [Plastic. metal](#)

Net weight: [1.2 kg](#)

Width of packaging: [10](#)

Depth of packaging: [55](#)

Height of packaging: [55](#)

Producer: [Eco-Light](#)

Brand: [Milagro](#)

## DESCRIPTION

---

BONO ceiling - night sky effect

The BONO collection from the Polish brand MiLAGRO is an unusual combination of simple design and the latest technology. The series includes a plafond in the shape resembling a sea, irregular shell. However, the true beauty only appears after dark, when the space is filled with flashing light creating the effect of a starry sky. Depending on your preferences, you can freely adjust the color of the light. A great convenience in operating the lamp is the ability to switch the lighting from virtually anywhere using a remote control.

The BONO ceiling fits perfectly into modern, minimalistic interiors, as well as more elegant ones. Such a stylish gadget can be successfully used in a hotel, restaurant or waiting room. In addition, the effect of shining stars will be perfect for a bedroom or living room. The pleasant light of the BONO series lamp can be successfully combined with other lighting created by the MiLAGRO brand.

BONO collection - Polish quality The great advantage of the BONO lamp is that it is controlled by a remote control. Therefore, regardless of where we are, we can activate the desired effect. Additionally, depending on the situation, you can quickly change the color of light to warm or cold.

The BONO collection consists of two plafonds. The smaller one has a diameter of 39 cm, while the larger one is 48 cm in diameter. The power of the smaller plafond is 36 W, and the larger one is 52 W. In both cases energy-saving LED diodes were used. The power of the luminous flux is 2520 and 3640 lumens, respectively. On the other hand, the value of the color temperature is the same in both cases - it is 3000K + 6000K. Importantly, the lamps in this line are covered by a 24-month manufacturer's warranty.

The line of BONO indoor lamps produced by the MiLAGRO brand consists of two unique lamp models:
