DESCRIPTION

The LIMA lamp family is an interesting way to decorate and illuminate rooms, houses and apartments. White balls hanging on black wires and a black base are an excellent choice for neat lighting. They are available in 3 versions differing in the number of luminaires and the method of their connection. Three compact round lenses connected with wires save space. On the other hand, sets of three or five luminaires hanging next to each other placed on one beam or rosette will perfectly allow you to decorate a larger space.

The design of the lamps makes them able to change the space when they are hung. Round glass shades provide good illumination from all sides of the lamp. In combination with black details, the lamp will perfectly match modern apartments in black & white colors and can be an interesting element of dining rooms and living rooms. Suspended in a central point, e.g. above the table or a kitchen island, they will attract the attention of guests.

The LIMA lamp collection is covered by a 24-month manufacturer's warranty.
