## DESCRIPTION

---

The WILL collection consists of lamps made of high-quality metal and wood. It works properly and safely at a frequency of 50 Hz and a voltage of 230 V. The product has light sources with a classic E27

thread. This series includes wall lamps, bedside lamps and ceiling lamps (with and without an overhang) with one point of light, ceiling lamps with places for three light bulbs and hanging lamps with five points of light. WILL series lamps show high sensitivity to moisture and pollution, as evidenced by the symbol of the protection degree - IP20. This should be borne in mind when choosing the place of installation of the products.

The MiLAGRO company has created the WILL series, the lamps of which are available in two color versions: black and white with wooden elements. They are perfect for modern, minimalistic, Scandinavian-style rooms. And, apart from practical use, they will be their decoration.

MiLAGRO products are covered by a 2-year warranty.
