MARK: [Milagro](#)

DESCRIPTION

The line of minimalist BASTONE lamps is the latest proposal from the designers of the Polish brand MiLAGRO. The collection includes three hanging lamps, available in two color variants: a combination of black with gold and white with chrome. The basic model resembles a simple stick or wand, suspended on a thin cord and crowned with light bulbs on both sides. The remaining proposals are based on the same concept, but are its extensive version - two luminaires for four and three for six light sources.

Lamps from the BASTONE family were created with modern and industrial living spaces in mind. A simple, slightly austere form and the use of metal as the main material make them an ideal solution for post-industrial, loft interiors. They are perfect as the main source of light in the living room or bedroom, as well as table lighting in the dining room or kitchen island.

Lamps from this collection are covered by a 24-month manufacturer's warranty.
