THREAD:	GU10
Ingress Protection (IP):	IP44
Color:	Black
Made of:	Aluminum + plastic
Producer:	Eco-Light
brand:	Eco-Light

DESCRIPTION

The OVALIS collection - minimalism in your garden

The modern OVALIS collection of garden lamps is a proposal that impresses with its minimalist form and maximum functionality. This family includes two black sconces with a geometric shape, slightly rounded in the front part. The first model has dimensions of 81x92x68 mm with one light source, the second is slightly larger and has a length of 150 millimeters and two light sources.

OVALIS outdoor lamps, produced by the Polish brand EKO-LIGHT, are a perfect solution for any garden, regardless of its size. Due to their simple and subtle form, they will work best on modern buildings with a lot of windows and without unnecessary decorations on the facade. The lamps must be fitted with GU10 bulbs (not included).

OVALIS lamps can also be successfully mounted on the terrace, in the garden gazebo or carport, as well as on the fence. They will look particularly impressive on aluminum fences in black or deep graphite.

OVALIS garden lamps - functionality above all

Elegant and stylish OVALIS garden lamps catch the eye with a minimalist form and noble colors, which is why they will be a real decoration of the property. The strength of the

sconces from this collection is not only their excellent appearance, but also their extraordinary functionality. They are made of the highest quality aluminum and acrylic details, thanks to which they will last in impeccable condition for many years. The IP44 degree of protection guarantees that the luminaires are tight and their interior is perfectly protected against external factors such as rain, dust or sand.

The OVALIS garden lamp collection includes:

- **Outdoor wall lamp with dimensions of 81/92/68mm EKO8302**
- **Outdoor wall lamp with dimensions of 81/150/68mm EKO8319**
