## DESCRIPTION

---

The NUSA line - modern flush-mounted lamps

The NUSA collection consists of four unique flush-mounted lamps. They are distinguished by a geometric shape (we can choose from round or square models), and their big advantage is a movable light source. The ability to set the angle of incidence of light allows you to adjust the lighting to individual needs. Thanks to this, we are able to arrange a reading corner or a place to work in an extremely simple way. NUSA lamps are also subdued and classic colors. White and black will blend in perfectly with the ceiling, as well as with the existing interior design. The width of each of these lamps is 97 mm, as is the depth. The height, in turn, is equal to 30 mm. These small dimensions of the lamps allow you to create a real galaxy of light in a room of your choice, as well as to adjust their number to your needs. You can install them in a study, bedroom,

NUSA flush-mounted lamps - the power of precision

The great advantage of NUSA flush-mounted lamps is their excellent quality and careful workmanship. High-quality aluminum, which was used to manufacture these lamps, guarantees that the points of light will fulfill their function for a very long time. In addition, each of the lamps included in this series has been described with the IP20 degree of protection. This means that the lighting is not only safe, but also resistant to the harmful effects of pollen.

NUSA lighting is covered by the manufacturer's warranty. Bulbs are not included with NUSA lamps.

The NUSA collection consists of the following lamp models:

- Round recessed luminaire in white ML0015
- Round recessed luminaire in black ML0022
- Square white recessed luminaire in white ML0039
- Square black recessed luminaire in black ML0046
