## DESCRIPTION

---

The collection of Oval Black lamps includes as many as 11 different types of lighting. These include non-hanging ceiling lights with one, three and five light points, ceiling lights on a strip with three, four and five light points, and ceiling lights on a circular headliner with three light points, as well as with three or five light points mounted on the arms . The collection is complemented by a small wall lamp and a standing lamp.

The lamps have a modern, spherical shape. They are made of metal and wood, which creates an original detail in the form of a ring at the end of the lampshade. Wood is also visible on the arms and the base of the individual models. The presented collection will be perfect for contemporary interiors characterized by simplicity and monochrome, black and white colors. Wood inserts warm up the entire styling. By combining individual models with each other, you can create a coherent and complete arrangement.

Lamps are covered by a 2-year warranty.
