## DESCRIPTION

---

The wide collection of Oval White lamps includes as many as 11 different types of lighting. The family includes a small wall lamp and a standing lamp, as well as ceiling lamps in various configurations: hanging with one, three and five light points, on a strip with three, four and five light points and on a round base with three light points or with three and five points of light mounted on the shoulders.

A characteristic element of the entire collection is a modern, spherical shape. Lamps, in addition to the metal finish, have stylish wooden details - rings at the end of the lampshade and on the arms and the base of individual models. Wood inserts warm up the entire styling. The presented collection will be perfect for contemporary interiors characterized by simplicity and monochrome, black and white colors. By combining individual models with each other, you can create a coherent and complete arrangement.

The manufacturer provides a 2-year warranty for the lamps.
