DESCRIPTION

The PIK series from the MiLAGRO brand is a proposal with a timeless and classic design that will delight every supporter of functional and durable solutions.

The PIK line consists of six elements. Each of them is available in three color versions: classic white and black, and in an interesting graphite shade. The series includes a whole range of ceiling lamps: with two light sources, with five light sources, and also with three.

The latter type is available in two configurations - with lamps arranged in a horizontal line, and also in the form of a circle. It is worth noting that the heads in each of these lamps are movable, which allows you to adjust the angle of light to your needs. The entire collection is complemented by a wall lamp.

PIK is a complete series of lamps, which allows you to adjust the number of their elements to your preferences. This line is perfect for office spaces or a home office. Made of durable metal, in turn, ensures above-average durability.

Lamps from the MiLAGRO brand are covered by a 2-year warranty period.
