DESCRIPTION

ETNA collection - modern light

The series of ETNA lamps from the MiLAGRO brand has been designed to illuminate the bedroom, living room, office, as well as commercial interiors, such as restaurants and hotels. What distinguishes this collection is the effective combination of elegance with a hint of modern design. ETNA lamps are classic lampshades made of a material that gently transmits and diffuses light. Thanks to this, the effect we get is extremely delicate, and the room will take on a unique glow. ETNA lamps are also a color contrast: ivory lampshades are combined with black metal arms. Such a color combination will perfectly fit into modern interiors, and the basic colors of the lamps will harmonize well with even the intense and saturated colors of the walls, furniture and other accessories in the room.

ETNA lamps - five unique models

A great advantage of the ETNA collection from the MiLAGRO brand is a wide selection of lamp models. It includes hanging lamps with three and five light sources, as well as complementing it: a study lamp, a floor lamp, and a subtle wall lamp. Each of them has a place for an E27 light source. Thanks to the number of available models, you can easily and satisfactorily illuminate even very large and spacious interiors, while maintaining stylistic consistency. Also, the materials selected for the design of these lamps are very durable, which will allow them to maintain their impeccable appearance for many years.

All ETNA lamps are covered by the manufacturer's warranty.

The following lamp models are part of the ETNA collection, which was designed by the MiLAGRO brand:

- Wall lamp with one light source MLP7275
- Hanging lamp with three light sources MLP7276
- Hanging lamp with five light sources MLP7277
- Office lamp MLP7278
- Floor lamp MLP7279
