DESCRIPTION

SENSO lamp collection - luxury in an effective edition

The new, complementary series of SENSO lamps is a solution designed for lovers of elegant accessories in noble colors. This collection includes as many as 20 different models, including wall lamps, round and square ceiling lamps of various sizes, a practical table and floor lamp. Each of these proposals is available in two color variants: black and gold and white and gold.

Lamps from the SENSO collection of the Polish brand MiLAGRO, although seemingly simple and minimalist, hide a huge arrangement potential. Their greatest strength is their lampshades, which optically slightly resemble marble with a characteristic pattern of veins. Such a contrast looks extremely elegant and makes the lighting from the SENSO line ideally suited to luxurious interiors in the New York style, glamor and even art-deco. The noble design of the lamps also means that a single model, mounted above the dining table or sofa in the living room, will give the room a stylish atmosphere. However, they will show their full potential in larger sets, when several different models are hung in one space, illuminating all its nooks and crannies.

Lamps from the SENSO collection - a treat for demanding customers

Luxurious lamps from the SENSO collection by MiLAGRO are an extremely well-thought-out proposal, made with the highest quality standards. Thanks to this, you can be sure that the lamps will last in perfect condition for many years and will delight the eye with their elegant appearance for a long time.

All lamps from the SENSO collection are adapted to E27 bulbs. Wall lamps and standing lamps have an additional GU10 LED light source.

The SENSO lamp collection includes:
