DESCRIPTION

CORK line - raw cork

Lamps from the CORK collection designed by the MiLAGRO brand are distinguished by the material from which they are made. The leitmotif of the entire line is the cork from which all lamp shades are made. It was combined with subdued gray and elegant golden details. Such a combination of materials and colors makes the lamps from the CORK line a perfect complement to the interior design of a diverse interior in an eclectic style, as well as the more austere and minimalist - Scandinavian. The former will be perfectly complemented by creating a harmonious arrangement team with other accessories, and the latter will be a bit warmer. All lamps in this series are distinguished by a geometric form - the shades have a round or rectangular shape.

CORK lamps - a large collection of lamps for your home

The CORK lamp series is also a very large selection of lighting. The collection consists of as many as 10 models. These are point light sources - wall lamps, a study lamp and a standing lamp, as well as the main lighting elements, i.e. a pendant lamp and ceiling lamps. The latter have two or three light sources. Such a variety allows you to illuminate a very large room or several smaller ones, while maintaining the consistency of the style of all lamps. The variety of sizes also gives great arrangement options: ceiling lamps are available in three different sizes: 40x40x13 cm, 50x50x13 cm and 60x60x13 cm. Each of these lamps has space for the appropriate number of E27 bulbs. In addition, there is a place for a mini GU10 bulb in the wall lamp and floor lamp. The CORK series lamps are covered by the manufacturer's warranty.

The CORK collection includes the following lamp models:

- Wall lamp MLP7515
