DESCRIPTION

Lincoln Lamp Collection - simplicity and minimalism The metal lamps from the LINCOLN family are the perfect combination of good design and functionality, while maintaining common sense. They are best for minimalist interiors. Deprived of various types of decorations, they will bring a sense of harmony and order to the room, because simplicity is a measure of comfort and often less is more. They will also look good in classic and modern arrangements.

It is worth placing the chandelier above a usable table top or a kitchen island.

LINCOLN hanging lamps are a great solution for the living room, kitchen and fashionable commercial premises.

The sparing design of these lamps has been enriched with the support of painting the interior of the lampshade in golden color, thus giving the entire collection a pinch of class and elegance.

In the case of the described collection, the manufacturer MiLAGRO also made sure that these lamps could be used in both low and high rooms, enabling the adjustment of the overhang length in the range of 40-90 cm.

Wide and open shades at the bottom, giving a lot of light, will fit into larger rooms as the main point of lighting. The LINCOLN collection is adapted to classic E27 bulbs.

The collection includes:
